# STRATA - Student Management Solution

STRATA is designed and built in Australia for the administration of tertiary education institutions. STRATA supports the delivery of vocational, graduate, and post-graduate education. STRATA provides functionality, flexibility, performance and reliability unmatched by any other product available in Australia today both on-site and in the cloud.

2018 is the tenth anniversary of the STRATA Student Management System and AVAXA has been developing STRATA over that time utilizing a shared customer development methodology that ensures a comprehensive up-to-date solution that meets our customer's needs in a timely manner. At AVAXA we are nimble and responsive to the market and passionate about helping our customer's meet their business objectives.

STRATA provides full support for the business processes of education including:

✓ Development and management of curriculum, Programs and enrolment Subjects

✓ Full end-to-end Student Online Enrolment, including calculation and collection of Student fees

✓ Applications Management for Apprenticeships, VETiS, International, Short Courses, Higher Education, Certificate, Diploma and Advanced Diploma

✓ Management of International Students for both on-shore and off-shore delivery

✓ Management of Program delivery, Student attendance and performance recording via electronic Markbook

✓ Management of Testamurs, Statement of Attainment, and Record of Results via a registry

✓ Graduation and Event Management

✓ Employer Portal, Student Portal and other online tools

✓ Statistical analysis, statutory and regulatory reporting (AVETMISS, HEIMS/HEPCAT)

✓ Resource Management and timetables for Students and Teachers

✓ Budgets, Claims and Payments Management

✓ History of all transactions for audit purposes

STRATA provides full Online Enrolment functionality. This enables the Student (or their agent) to make an application which supports entry of their personal details, educational background, Program selections and other relevant information to enable the RTO to make an offer to the applicant. Applicants can make payment electronically, via loans or periodic payment schemes or via Debitsuccess.

STRATA supports enrolments for all Vocational and Higher Education, and for a wide range of Programs. The background circumstances of a Student and the type of Program they select to enrol into determines the requirements for enrolment.

curriculum records during the entire Student journey, AVAXA's skilled Staff can provide advice and management to ensure a smooth transition to the STRATA Student Management Solution

Apprenticeship Management

The Apprenticeship Enrolment is an online service that enables Registered Training Organisations throughout Victoria to expedite the Apprentice application process generated from the EPSILON system.

The functionality of Apprenticeship Enrolment includes:

✓ Streamlining the identification of all Apprentices and trainees designated to your RTO in EPSILON system.

✓ Automation of the process of collecting all Apprentice/trainee biographical data, Employer details and contract status.

✓ Management and scheduling of enrolment activities and coordination of induction sessions.

✓ Downloading of EPSILON Apprentice contract plus personal statistical details, BKSB results and the GreenID verification status directly into your Student Management System.

The government focus on data accuracy requires the acquisition and reporting of correct information in a timely manner to optimise Government payments to your RTO.

The enrolment application gathers all key information leading to enrolment including:

✓ Personal and statistical details, emergency contacts, prior education, disability status, and Student declarations that are critical to your organisation meeting compliance obligations.

✓ Pre-Training review data including completion of literacy and numeracy skills levels using ACSF based assessment via full name (BKSB).

✓ Eligibility for Government funding including proof of identity using the GreenID electronic verification platform.

APPRENTICESHIP

SCHOOL   STUDIES   PROFESSION   SKILLS   PERFORMANCE   CAREER   MOTIVATION   GOALS

Throughout the process, email communication is provided to the Student and the Employer with relevant updates and instructions to promote efficient progression.

This includes the ability to communicate details of induction sessions and the necessary requirements to be completed prior to attendance.

As part of the process the information can be downloaded to your Student Management System via industry standard interfaces.

The key benefits include streamlined Employer and applicant communication, the reduction in manual data entry, improved compliance, and reduced reporting issues for the RTO.

If your organisation finds it challenging to keep on top of your Apprenticeship enrolments, AVAXA's skilled Staff can help secure your funding
