VET in Schools (VETiS)

AVAXA

The STRATA VETiS Module streamlines VETiS processes and allows VET Coordinators to submit applications for their Students for VETiS Programs. It is designed to give participating school teaching Staff online and real-time access to Student records.

The VETiS Portal capabilities allow you to improve interaction between your RTO and VETiS schools by providing greater Student data visibility to the schools.

The purpose of the VETiS module is to reduce the cost of running your RTO's VETiS Student management activities by simplifying handling of the Student information before enrolment, reducing data entry and improving compliance with Government and RTO processes.

STRATA VETiS module has two components:

✓ A STRATA back-end – for the management of aspects of VETiS Program by RTO Staff

✓ A VETiS School Portal – for Schools' Staff to manage/review applications, results, and attendance.

The STRATA Course Information System (CIS) can be used to manage of the Program marketing information prepared by a department and retrieval for document printing or website display.

The VETiS School Portal provides tools to review, manage or download:

✓ School details

✓ Applications, either existing applications or adding new applications

✓ Current results

✓ Details of Student attendance and Teachers' notes

✓ School Based Apprentices, including enrolment, attendance, and result information

✓ News, announcements, changes, new Programs, etc.

A "Contact Us" link that can be used to send emails to the VETiS Team.

All data in the VETiS School Portal is stored directly and in real-time in the STRATA database.

If your organisation finds it challenging to manage VET in Schools, AVAXA's skilled Staff can help implement and customise the VET in Schools application for your specific needs.

If you have further questions relating to this offer, please contact AVAXA by calling Andrew Munro or Rod Jones on (03) 9533 7611.
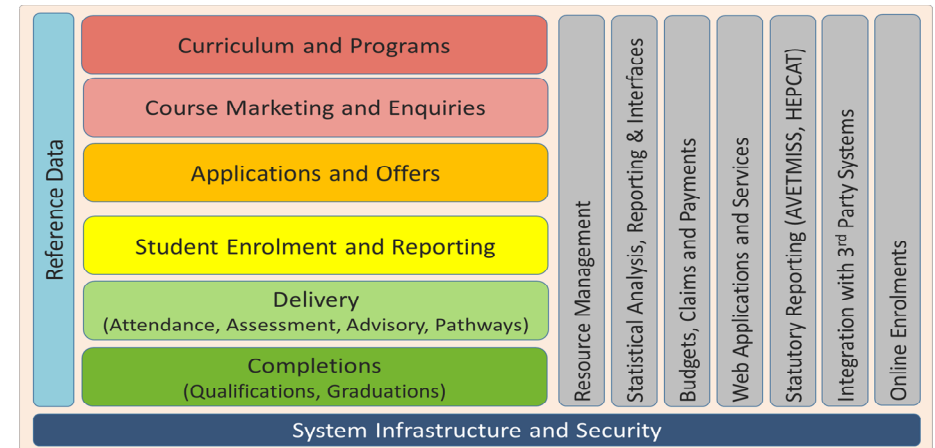

STRATA - Student Management Solution

STRATA is designed and built in Australia for the administration of tertiary education institutions. STRATA supports the delivery of vocational, graduate, and post-graduate education. STRATA provides functionality, flexibility, performance and reliability unmatched by any other product available in Australia today both on-site and in the cloud.

2018 is the tenth anniversary of the STRATA Student Management System and AVAXA has been developing STRATA over that time utilizing a shared customer development methodology that ensures a comprehensive up-to-date solution that meets our customer's needs in a timely manner. At AVAXA we are nimble and responsive to the market and passionate about helping our customer's meet their business objectives.

STRATA provides full support for the business processes of education including:

- ✓ Development and management of curriculum, Programs and enrolment Subjects
- ✓ Full end-to-end Student Online Enrolment, including calculation and collection of Student fees
- ✓ Applications Management for Apprenticeships, VETiS, International, Short Courses, Higher Education, Certificate, Diploma and Advanced Diploma
- ✓ Management of International Students for both on-shore and off-shore delivery
- ✓ Management of Program delivery, Student attendance and performance recording via electronic Markbook
- ✓ Management of Testamurs, Statement of Attainment, and Record of Results via a registry
- ✓ Graduation and Event Management
- ✓ Employer Portal, Student Portal and other online tools
- ✓ Statistical analysis, statutory and regulatory reporting (AVETMISS, HEIMS/HEPCAT)
- ✓ Resource Management and timetables for Students and Teachers
- ✓ Budgets, Claims and Payments Management
- ✓ History of all transactions for audit purposes

STRATA provides full Online Enrolment functionality. This enables the Student (or their agent) to make an application which supports entry of their personal details, educational background, Program selections and other relevant information to enable the RTO to make an offer to the applicant. Applicants can make payment electronically, via loans or periodic payment schemes or via Debitsuccess.

STRATA supports enrolments for all Vocational and Higher Education, and for a wide range of Programs. The background circumstances of a Student and the type of Program they select to enrol into determines the requirements for enrolment.

If your organization finds it challenging to maintain compliant Student and curriculum records during the entire Student journey, AVAXA's skilled Staff can provide advice and management to ensure a smooth transition to the STRATA Student Management Solution
